ABOUT THE COMPANY

# CrossCountry Mortgage, LLC

CrossCountry Mortgage (CCM) is the #1 retail mortgage lender in the United States, providing a wide range of mortgage solutions nationwide. Known for its commitment to innovation and borrower-first approach, CCM funds over 100,000 loans annually through its expansive network of branches and loan officers across all 50 states.

As a market leader headquartered in Cleveland, OH, CCM has built its reputation on delivering a seamless, personalized mortgage experience while maintaining the agility to adapt quickly to industry changes and borrower needs. The company's mission: make every mortgage experience simple and personalized.

**The $18M verification problem.**

Before partnering with Truv, CCM was spending approximately $18 million annually on income and employment verifications through traditional providers. The high cost of legacy verification services—combined with operational inefficiencies and limited integration flexibility—created significant drag on CCM's ability to scale efficiently and maintain competitive margins.

CCM partnered with Truv to modernize its verification processes, seeking a consumer-permissioned solution that could integrate directly into its existing workflows in Blend and Encompass—delivering immediate cost savings while improving data accuracy, borrower experience, and overall operational throughput across its nationwide branch network.

AT A GLANCE

| | | | |
|---|---|---|---|

WHY TRUV

## The Truv Platform

CCM selected Truv for its unmatched coverage, cost efficiency, and ability to embed directly into existing POS and LOS workflows—replacing costly legacy verification providers with consumer-permissioned data from the source.

THE CHALLENGE

# $18M in Annual Verification Costs & Operational Bottlenecks

As the largest retail mortgage lender in the nation, CCM was spending approximately $18 million annually on verifications through legacy providers. Beyond cost, loan officers and processors faced significant operational bottlenecks. CCM needed a partner that could deliver both cost efficiency and deeply integrated workflows.

### Reduce verification spend

Cut the $18M annual verification bill without sacrificing data quality or borrower experience

### Eliminate inefficiencies

Remove manual follow-up tasks and re-verification workflows slowing down loan officers

### Deep system integration

Embed verification into Blend (POS) and Encompass (LOS) without disrupting workflows

### Improve data accuracy

Replace legacy providers' inconsistent results with direct-source, consumer-permissioned data

### Scale nationwide

Deploy across all branches with training materials and marketing assets that drive adoption at scale

> Truv has redefined what partnership means—delivering accurate, trustworthy data, rapid implementation, and the agility to help us close loans faster and more confidently.

EVP of Corporate Operations Support, CrossCountry Mortgage

THE SOLUTION

# Consumer-Permissioned Verification in Blend & Encompass

Truv partnered closely with CCM to embed consumer-permissioned verification directly within the two platforms that power CCM's operations: Blend for borrower-facing verifications and Encompass for back-office re-verifications.

POINT OF SALE

## Blend Integration

Truv powers borrower verifications as follow-up tasks, allowing loan officers to request and complete income and employment verifications without ever leaving their core workflow. Borrowers receive a seamless experience that guides them through account-linking with clear messaging and minimal friction.

LOAN ORIGINATION

## Encompass Integration

Truv automates re-verifications—a traditionally manual, time-consuming process—at no additional cost. This eliminates the need for processors to manually chase down re-verification orders, freeing up valuable time and reducing delays as loans approach closing.

| BEFORE | | TRUV BRIDGE | | RESULT |
|---|---|---|---|---|
| Manual VOIE via legacy provider | → | Borrower links payroll account | → | Instant verification in Blend & Encompass |

Truv also improved data accuracy by replacing CCM's legacy solution's inconsistent, hit-or-miss approach with direct-source results. Every successful verification delivers complete, reliable data sets—eliminating guesswork and giving underwriters the confidence to make faster decisions.

The implementation required minimal development lift. In partnership with Truv and Blend, CCM launched a custom-built integration and achieved a full company-wide go-live in under 30 days—a rapid deployment that proved Truv's ease of implementation at scale.

Beyond the technology, Truv worked hand-in-hand with CCM's teams to design and deploy custom training materials and marketing assets for branches nationwide, ensuring adoption success from day one across every channel.

> *"Truv has been a true partner to CCM—responsive, innovative, and always willing to customize solutions to fit our needs."*
>
> — Tom Durney, EVP of Corporate Operations Support, CrossCountry Mortgage

OUTCOMES

# Key Results

### Est. $10 Million in Annual Savings

CCM cut income and employment verification expenses by 40% compared to legacy providers, translating to an estimated $10M in annual savings.

### 70%+ Post-Login Completion Rate

Borrowers easily connect payroll accounts and complete verifications, driving a seamless experience that accelerates loan decisions.

### 8% Uplift in Buyback Protection

Truv delivered an 8% increase in verifications qualifying for GSE rep and warranty relief, reducing risk exposure across CCM's portfolio.

### Go-Live in Under One Month

CCM launched a custom-built Blend integration and achieved full company-wide go-live in under 30 days, proving Truv's ease of implementation at scale.

| BEFORE TRUV | |
|---|---|
| Annual VOIE spend | ~$18M |
| Data consistency | Inconsistent |
| Re-verification cost | Full price |
| R&W relief uplift | Baseline |

| WITH TRUV | |
|---|---|
| Annual VOIE spend | ~$8M (est.) |
| Data consistency | Direct-source |
| Re-verification cost | Free |
| R&W relief uplift | +8% |

WHITE-GLOVE PARTNERSHIP

## White-Glove Partnership and Ongoing Support

Truv's collaboration with CCM goes beyond technology—it's a true partnership focused on success across every branch and channel.

Truv's product and customer success team worked closely with CCM to:

- Conduct live training sessions with numerous CCM branches nationwide to ensure adoption success
- Co-create personalized marketing materials and training assets for loan officers
- Deliver quick turnaround times on feature requests, escalations, and custom builds
- Refine integrations and expand the borrower experience through a collaborative roadmap
- Design a fully embedded borrower experience natively within Blend

*This collaborative approach created lasting trust and measurable ROI across CCM's verification ecosystem.*

CONCLUSION

| $10M | 70%+ | 8% | <1mo |
|---|---|---|---|
| ANNUAL SAVINGS | COMPLETION RATE | R&W UPLIFT | GO-LIVE |

Through its partnership with Truv, CrossCountry Mortgage has transformed how it manages verifications—achieving an estimated **$10 million in annual cost savings**, **enhanced borrower experiences**, and **streamlined operations** across platforms like Blend and Encompass.

This collaboration showcases what's possible when an industry leader and a technology innovator align around shared goals: **efficiency, transparency, and borrower-first lending**. Looking ahead, CCM and Truv are working toward a fully embedded borrower experience natively within Blend—setting a new benchmark for what verification should look like at scale.
