ABOUT THE COMPANY

Prosperity Home Mortgage, LLC

Prosperity Home Mortgage, LLC (PHM), a subsidiary of HomeServices of America, a Berkshire Hathaway affiliate, is one of the top 15 retail mortgage lenders in the United States, as ranked by the Scotsman Guide. PHM is consistently ranked at the top of the industry's most prestigious customer service rankings, reflecting its unrivaled commitment to delivering an exceptional customer experience for the 25,000+ borrowers they serve annually.

The lender funds over $8 billion annually in production while employing 450+ producing mortgage consultants, achieving among the highest productivity per mortgage consultant in the mortgage industry.

PHM selected Truv as its primary VOIE and VOA provider, integrating directly into its Lodasoft point-of-sale system in under one month.

AT A GLANCE

Annual Production	$8B+
Loans Funded	20,000/year
Mortgage Consultants	450+
Borrowers Served	25,000+/year
Headquarters	Fairfax, VA
NMLS ID	#75164

THE CHALLENGE

Rising Costs & Low Conversion Rates

Reduce Verification Spending

In 2021, PHM faced rising loan origination costs, primarily driven by legacy verification services, resulting in total verification costs exceeding $492 on a portion of loans.

Enhance Borrower Experience

Improve borrower adoption by simplifying the account linking process and using messaging throughout that builds trust in the process.

Cross-Platform Portability

Integrate with POS while allowing seamless access in LOS without functionality loss or borrower re-engagement.

Security & Compliance

Work with a verification provider that adheres to the highest industry security standards and protocols, including SOC 2 Type II certification, to protect sensitive borrower data and maintain regulatory compliance.

THE SOLUTION

Truv: Consumer-Permissioned Verification

PHM selected Truv as its primary VOIE and VOA provider, integrating directly into its Lodasoft point-of-sale system. Implementation focused on borrower education, trust-centered workflows, and data-driven continuous improvements.

Truv provides original paystubs and W2s with every successful verification, enabling PHM to use returned data across 100% of loan files regardless of investor type (agency, non-QM, or others).

- Borrower education and trust-led workflow
- Customized in-app messaging and user experience
- Streamlined account linking experiences
- Continuous improvements driven by data analysis

THE RESULTS

Measurable Impact Across Operations

90%+
Cost Savings
over legacy verification providers, translating to millions in annual savings

85%
Linking Attempt Rate
of applicants now attempt to link accounts

KEY OUTCOMES

Operational Excellence Achieved

Cross-Platform Experience

Data completed in point-of-sale automatically appears in loan origination system, enabling seamless reverifications and 10-day pre-closing verifications.

More than 90% Cost Savings Over Legacy Verification Providers

Truv's direct-to-source verification model reduced PHM's per-loan verification costs by more than 90% compared to legacy verification providers, translating into millions in annual savings across PHM's 20,000 annual loan fundings.

Conversion Rate

Through targeted optimization, Truv drives 70% VOIE and 80% VOA login conversion rates, with 85% of applicants now attempting to link accounts.

White-Glove Support

Less than one month deployment in Lodasoft with white-glove onboarding support ensuring rapid integration and fast adoption.

> *"By grabbing the paystubs and W2s as part of their VOIE product, in addition to having the VOA to use as bank statements, Truv gives us the opportunity to hit a home run of simplicity and efficiency on every loan regardless of investor."*
>
> — Josh Byrom, SVP Technology & Innovation

> *"Where support is an afterthought with some vendors, support is a feature with Truv."*
>
> — Josh Byrom, SVP Technology & Innovation
